In addition to the Public Rights of Way shown on the Constraints Map the Council is also processing pending Definitive Map Modification Orders and these can be viewed online at "What is the definitive map?" (cardiff.gov.uk) or by contacting the PROW team for more information.

Development Proximity Zones (DPZ) are land use planning consultation zones drawn around hazardous installations where HSE advice should be sought.

The Flood Zones shown on the Constraints Map are from the Flood Map for Planning (FMPF) which support the new revised TAN15. This new guidance is required to be considered when preparing the settlement strategy and site allocations for Development Plans. The Map is regularly updated, and the latest version can be viewed online.
